

CILogon-HA: Higher Assurance Federated Identities for DOE Science

September 2014 Update

Jim Basney
jbasney@ncsa.illinois.edu

This material is based upon work supported by the Department of Energy under award number DE-SC0008597. Any opinions, findings, and conclusions or recommendations expressed in this material are those of the authors and do not necessarily reflect the views of the United States Government or any agency thereof.

CILogon – <https://cilogon.org/>

- Provides personal digital certificates for access to cyberinfrastructure
- Uses federated authentication for user identification

The screenshot shows a web browser window titled "Welcome To The CILogon Service". The page has a green header with the CILogon logo (a green square with a white 'C' and an upward arrow) and the text "CILogon Service". Below the header, there is a "Show Help" button in the top right corner. The main content area is titled "Select An Identity Provider:" and contains a list box with the following options: "University of Hawaii", "University of Illinois at Chicago", "University of Illinois At Springfield", and "University of Illinois at Urbana-Champaign". Below the list box is a "Search:" label followed by a text input field. Underneath the search field is a "Remember this selection:" label with an unchecked checkbox. A green "Log On" button is positioned below the checkbox. At the bottom of the main content area, a small text line reads: "By selecting 'Log On', you agree to [CILogon's privacy policy](#)." The footer of the page contains a text block: "For questions about this site, please see the [FAQs](#) or send email to help@cilogon.org. Know your responsibilities for using the CILogon Service. See [acknowledgements](#) of support for this site." and a blue circular help icon with a question mark on the right.

Federated Authentication

- Log on to CILogon using your campus (InCommon) or Google (OpenID) account

Login – University of Illinois at Urbana-Champaign

ILLINOIS LOGIN

You must log in to continue.

Enter your **NetID**:

Enter your **Active Directory (AD) password**:

Bridging InCommon and IGTF

- Translating mechanism and policy across higher education and grid trust federations

InCommon is operated by Internet2

InCommon

About Participants Join InCommon

Home Federation Certificates Assurance Multifactor

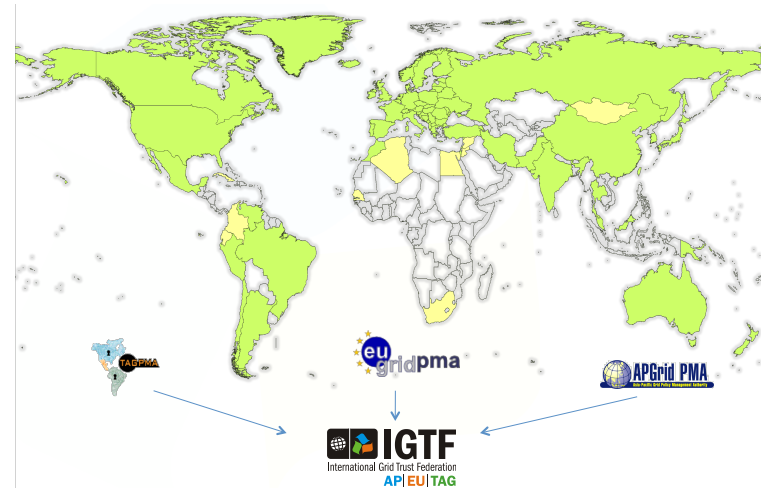

Current InCommon Participants

Below is a complete list of InCommon Participants. There are also lists available for:

- **Identity and Service Providers** deployed in the federation (and other metadata-driven pages)
- **Certificate Service** subscribers

The IdP and SP pages include links to more-detailed information on each entity—just go to the IdP or SP list and click on the name of the IdP or SP you are interested in. **InCommon serves almost 6 million end-users through federated identity management.**

Multiple Levels of Assurance

- CILogon Silver CA
 - InCommon Silver IDs
 - IGTF accredited February 2011
- CILogon Basic CA
 - “Basic” InCommon IDs
 - IGTF accredited June 2014
- Google Authenticator provides second authentication factor

A screenshot of a web browser window titled 'Google Authenticator Login'. The page has a green header with the CILogon Service logo and name. Below the header, the title 'Google Authenticator Login' is displayed. A message states: 'Your account has been configured to use Google Authenticator as a second authentication factor. Enter a one-time passcode as generated by the app below.' A form box contains the text 'Account: A534@cilogon.org' and 'Passcode: 177799' with a text input field for the passcode. An 'Enter' button is located below the passcode field. At the bottom of the form, there is a link that says 'Don't have your phone with you?'.

Integrated with Globus Nexus

The screenshot shows the Globus Online Sign In interface. At the top is a navigation bar with the Globus Online logo and links for Manage Data, Groups, News & Events, About, Support, Log In, and Sign Up. Below this is a 'Sign In' section with a 'Use Your GlobusOnline login' option and an 'alternate login' button circled in red. The login form includes fields for Username and Password, a Sign In button, and a 'Forgot Password?' link. A modal titled 'Select a different login' is open, displaying a list of login providers. The 'InCommon / CILogon' option is circled in red. Other providers listed include GlobusOnline, Argonne LCF, Argonne MCS & LCRC, BIRN, CLI Transition, EGI, ESG ANL, Exeter, Google, LRZ, NCSA, NCSA Blue Waters, NERSC, UChicago CI, UChicago iBi, UK NGS, WestGrid, and XSEDE. The footer contains links for Manage Data, case studies, pro tips, and a subscription link for Globus News & Updates.

Used by DOE KBase

The screenshot shows the KBase Predictive Biology DOE Systems Biology Knowledgebase login page. The page has a header with the KBase logo and navigation links for 'Log In' and 'Sign Up'. Below the header, there is a 'Sign In' section with a 'Sign Up with Globus' link. A modal dialog titled 'Select Identity Provider' is open, displaying a list of providers. The 'InCommon / CILogon' option is highlighted with a red circle. The 'alternate login' link is also circled in red. The footer of the page includes the U.S. Department of Energy's Office of Biological and Environmental Research logo and a link to the Privacy and Security Notice.

Used by OSG Connect

The screenshot shows a web browser window with the address bar displaying `https://portal.osgconnect.net/SignIn`. The page title is "SignIn | OSG Connect (Globus Online)". The navigation bar includes the "osg connect" logo, "Support", "Resources", "OSG Connect", and "Sign In / Register". The main heading is "Efficiently connect your science to cycles and data". On the left, the "osg connect" logo is followed by the text: "OSG Connect offers users simple access to distributed high throughput computing resources, and reliable, high-performance file transfer services." On the right, the "Sign In" section features a link "Sign Up with Globus Online" and a red circle around the text "Using your InCommon / CILogon login.", with an "alternate login" link nearby. Below this, a message states "You will now be redirected to InCommon / CILogon's authentication page." and a "Proceed" button is visible. The footer contains the copyright notice: "© 2013 Open Science Grid and University of Chicago".

CILogon and XSEDE

Extreme Science and Engineering
Discovery Environment

- CILogon is
 - a component in the XSEDE architecture
 - following the XSEDE engineering process:
architecture, design, and security reviews and
operational acceptance tests
- XSEDE provides sustained operational support to CILogon users (ATLAS, DataONE, OOI, OSG, KBASE, LIGO, etc.)
- Including backup CILogon instance at NICS

Our Journal Article

Jim Basney, Terry Fleury, and Jeff Gaynor,
"CILogon: A Federated X.509 Certification Authority
for CyberInfrastructure Logon," Concurrency and
Computation: Practice and Experience, Volume 26,
Issue 13, pages 2225-2239, September 2014.
<http://dx.doi.org/10.1002/cpe.3265>

“What question does your research motivate you to now ask?”

- What models are effective for exchange of user information in distributed systems?
 - need user info for authentication, authorization, accounting, incident response, troubleshooting
 - models: virtual organization, gateways/hubs, user consent/control, certification (InCommon R&S, IGTF), self-asserted compliance (InCommon Bronze, REFEDS CoC)
 - challenges: regulatory, scaling, information quality/timeliness, misaligned goals
 - Who owns/controls the data?

Thanks!
